

**Interreg  
Italia-Slovenija**

**Co-funded by  
the European Union**

**ECOMAPS**

**Environmental and  
Climate Change  
Observation through  
Urban Air Pollution  
Monitoring**

**Duration  
01/05/2025—30/04/2027**

**Total budget  
802.610,30 €**

ECOMAPS will promote adaptation to climate change in the cities of Venice and Ljubljana by monitoring black carbon and studying the degradation of pollutants. A bilingual web app will be created to display real-time air quality data, and guidelines will be developed for the future monitoring of emerging contaminants

**[www.ita-slo.eu/ECOMAPS](http://www.ita-slo.eu/ECOMAPS)**

The funds allocated by the ECOMAPS project were used to purchase laboratory equipment for studying the photodegradation of pollutants.

The ECOMAPS project is co-funded by the European Union under the Interreg VI-A Italy-Slovenia Programme.
