

VISIT
POSTOJNA

CHIC MANNERS!

... for locals and visitors alike.

"This is a new world. This is paradise!"
exclaimed Luka Čeč in 1818 when he discovered
the Postojna Cave. His discovery has been a part
of the wonders of the world ever since.

Some positive thoughts for a more pleasant stay in Postojna

Water

Our water is clean, delicious and potable, so you can fill your reusable bottle without any issues. Save water where you can – reduce the water flow while brushing your teeth or taking a shower. You can water your plants with the water you used for washing your fruits or vegetables. Use rainwater to water your garden.

Food

Carefully plan your food purchases and your meals, in order to create less waste. Safely and appropriately store your leftovers in the refrigerator. If you have some food left over and do not know what to do with it, you can always use it for compost, if you have the opportunity.

Waste

Clean up your trash and separate waste. Garbage cans can be found all around town. In nature, however, take your trash with you and do not leave it behind. Cigarette butts and chewing gums belong in the bin as well.

Dog excrement

Clean after your four-legged friend and throw their excrement in a garbage bin. Use biodegradable bags available in every pet store. There is more than enough green surfaces around town where dogs can do their business, so please avoid sidewalks and parks.

Electricity

Save electricity wherever possible. Turn off the lights when you don't need them. Turn off the air conditioning when you no longer need it, and close the windows to keep the cool air in the room.

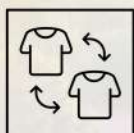

Landscaped areas

The kind of the environment in which we live should be important to us. Clean the surroundings of your house, neatly landscape greenery and gardens, plant trees and shrubs, arrange balconies and decorate them with flowers. Small details and small things can sometimes have a really big impact.

Textiles and clothing

Used second-hand clothes that are still usable can be donated or brought to a clothing swap (in Postojna, these are held at least once a year). Old bedding, blankets and towels can be donated to animal shelters that really need them.

Tourist accommodations

cleaning, changing towels and linens

Avoid cleaning rooms and changing towels and linens every day. In this way, less cleaning agents, as well as less water and electricity, are used. And yes, small steps really go a long way.

Guardians of nature

Don't forget that we are all guests in nature, which is why we have to respect and protect it. Do not destroy caves and stalactites in them, do not break branches, do not pick flowers and other plants in protected areas, do not pollute rivers, do not be too loud and do not disturb animals.

Admire, do not destroy!

Cultural monuments, statues and buildings are there to be admired. Benches, garbage cans, elevators, public toilets, children's playgrounds and other public areas are there to be used. Even though they are not our personal property, they should not be destroyed.

Plastic

Use a reusable tote bag for your shopping.

Avoid using plastic bags, straws, and other materials that are harmful to the environment.

(Green) Mobility

Avoid using cars or RVs.

Taking a bus, biking or walking are much more environmentally friendly options. In Postojna, you can rent a bike from spring to autumn.

Parking

Park your cars in arranged parking lots.

Using toilets

Use the public toilet on Tržaška cesta in Postojna or the toilet facilities in bars and restaurants that you visit.

Support local products

Purchase homemade and local products and crops.

Hire local guides who are an invaluable source of information about our destination.

Kindness and respect

Be kind and respectful to one another. Acting in this way costs us nothing. Travellers, respect the locals – respect both our privacy and property, because we are the guardians of this part of the world that you visited.

Respectful behaviour should not only be a matter of courtesy, but a way of life.
